For Government Obligations, Treasury Obligations and U.S. Treasury Money Market – You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

For Retail Prime Obligations and Retail Tax Free Obligations – You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

For Institutional Prime Obligations – You could lose money by investing in the Fund. Because the share price of the Fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

NOT FDIC INSURED NO BANK GUARANTEE MAY LOSE VALUE

Message to Shareholders

Dear Shareholders:

We invite you to take a few minutes to review the results of the fiscal year ended August 31, 2018.

This report includes a complete listing of portfolio holdings and additional fund information. We hope you will find this helpful in monitoring your investment portfolio.

Also, through our website, FirstAmericanFunds.com, we provide performance fact sheets on all First American Funds and other information about fund investments and portfolio strategies.

Please contact your financial professional if you have questions about First American Funds or contact First American Investor Services at 800.677.3863.

We appreciate your investment with First American Funds and look forward to serving your financial needs in the future.

Sincerely,

Richard K. Riederer

*Chair of the Board
First American Funds, Inc.*

Eric J. Thole

*President
First American Funds, Inc.*

Explanation of Financial Statements

As a shareholder in First American Funds you receive shareholder reports semi-annually. We strive to present this financial information in an easy-to-understand format; however, for many investors, the information contained in this shareholder report may seem very technical. So we would like to take this opportunity to explain several sections of the shareholder report.

The Schedule of Investments details all of the securities held in the fund and their related dollar values on the last day of the reporting period. Securities are presented by type (certificates of deposit, government agency debt, etc.) and, for Retail Tax Free Obligations Fund, by state. This information is useful for analyzing how your fund's assets are invested and seeing where your portfolio manager believes the best opportunities exist to meet your objectives. Holdings are subject to change without notice and do not constitute a recommendation of any individual security. The Notes to the Financial Statements provide additional details on how the securities are valued.

The Statement of Assets and Liabilities lists the assets and liabilities of the fund and presents the fund's net asset value ("NAV") per share on the last day of the reporting period. The NAV is calculated by dividing the fund's net assets (assets minus liabilities) by the number of shares outstanding. The investments as presented in the Schedule of Investments comprise substantially all of the fund's assets. Other assets include cash and receivables for items such as income earned by the fund but not yet received. Liabilities include payables for items such as fund expenses incurred but not yet paid.

The Statement of Operations details interest income earned from securities as well as the expenses incurred by the fund during the reporting period. Fund expenses may be reduced through fee waivers or reimbursements. This statement reflects total expenses before any waivers or reimbursements, the amount of waivers and reimbursements (if any), and the net expenses. This statement also shows the net realized and unrealized gains and losses from investments owned during the period. The Notes to Financial Statements provide additional details on investment income and expenses of the fund.

The Statement of Changes in Net Assets describes how the fund's net assets were affected by its operating results, distributions to shareholders, and shareholder transactions during the reporting period. This statement is important to investors because it shows exactly what caused the fund's net asset size to change during the period.

The Financial Highlights provide a per-share breakdown of the components that affected the fund's NAV for the current and past reporting periods. It also shows total return, expense ratios, and net investment income ratios. The net investment income ratios summarize the income earned less expenses, divided by the average net assets. The expense ratios represent the percentage of average net assets that were used to cover operating expenses during the period.

The Notes to Financial Statements disclose the organizational background of the fund, its significant accounting policies, federal tax information, fees and compensation paid to affiliates, and significant risks and contingencies.

We hope this guide to your shareholder report will help you get the most out of this important resource. You can visit First American Funds' website for other useful information on each of our funds, including fund prices, performance, fund manager bios, dividend information, and downloadable fact sheets. For more information, call First American Investor Services at **800.677.3863** or visit **FirstAmericanFunds.com**.

Holdings Summaries

Other Assets and Liabilities, Net ²	<u>(0.1)</u>
	100.0%

U.S. Treasury Money Market Fund

Portfolio Allocation as of August 31, 2018¹ (% of net assets)

U.S. Treasury Debt	100.1%
Other Assets and Liabilities, Net ²	<u>(0.1)</u>
	100.0%

¹ Portfolio allocations are subject to change at any time and are not recommendations to buy or sell any security.

² Investments in securities typically comprise substantially all of the fund's net assets. Other assets and liabilities include receivables for items such as income earned but not yet received and payables for items such as fund expenses incurred but not yet paid.

³ See note 5 in Notes to Financial Statements for additional information on the portfolio characteristics of the fund.

Expense Examples

Expense Example

As a shareholder of one or more of the funds you incur ongoing costs, including investment advisory fees, distribution and/or service (12b-1) fees, and other fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the funds and to compare these costs with the ongoing costs of investing in other mutual funds. The examples are based on an investment of \$1,000 invested in a fund at the beginning of the period and held for the entire period from March 1, 2018 to August 31, 2018.

Actual Expenses

For each class of each fund, two lines are presented in the table below – the first line for each class provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested in the particular fund and class, to estimate the expenses that you paid over the period. Simply divide your account value in the fund and class by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During Period” for your fund and class to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

For each class of each fund, the second line for each class provides information about hypothetical account values and hypothetical expenses based on the respective fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the fund and other funds. To do so, compare these hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads). Therefore, the second line of the tables for each class of each fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Government Obligations Fund

	Beginning Account Value (3/1/2018)	Ending Account Value (8/31/2018)	Expenses Paid During Period ¹ (3/1/2018 to 8/31/2018)
Class A Actual ²	\$1,000.00	\$1,005.30	\$3.79
Class A Hypothetical (5% return before expenses)	\$1,000.00	\$1,021.42	\$3.82

³ Expenses are equal to the fund's annualized expense ratio for the most recent six-month period of 0.75%, 0.60%, 0.30%, 0.45%, and 0.20% for Class A, Class D, Class V, Class Y, and Class Z, respectively, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the six-month period).

⁴ Based on the actual returns for the six-month period ended August 31, 2018 of 0.52%, 0.60%, 0.75%, 0.67%, and 0.80% for Class A, Class D, Class V, Class Y, and Class Z, respectively.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of First American Funds, Inc.

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of First American Funds, Inc. (referred to as the “Company”) (comprising the Government Obligations Fund, Institutional Prime Obligations Fund, Retail Prime Obligations Fund, Retail Tax Free Obligations Fund, Treasury Obligations Fund, and U.S. Treasury Money Market Fund) (collectively referred to as the “Funds”), including the schedule of investments, as of August 31, 2018, and the related statements of operations, changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising the Company at August 31, 2018, the results of their operations, changes in net assets and financial highlights for the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Funds comprising First American Funds, Inc.	Statement of operations	Statements of changes in net assets	Financial highlights
Government Obligations Fund	For one year in the period ended August 31, 2018	For each of the two years in the period ended August 31, 2018	For each of the five years in the period ended August 31, 2018.
Institutional Prime Obligations Fund	For one year in the period ended August 31, 2018	For each of the two years in the period ended August 31, 2018	For each of the five years in the period ended August 31, 2018.
Retail Prime Obligations Fund	For one year in the period ended August 31, 2018	For the year ended August 31, 2018 and the period from July 18, 2016 (commencement of operations) through August 31, 2017.	For each of the two years in the period ended August 31, 2018, and the period from July 18, 2016 (commencement of operations) through August 31, 2017.
Retail Tax Free Obligations Fund	For one year in the period ended August 31, 2018	For each of the two years in the period ended August 31, 2018	For each of the five years in the period ended August 31, 2018.
Treasury Obligations Fund	For one year in the period ended August 31, 2018	For each of the two years in the period ended August 31, 2018	For each of the five years in the period ended August 31, 2018.
U.S. Treasury Money Market Fund	For one year in the period ended August 31, 2018	For each of the two years in the period ended August 31, 2018	For each of the five years in the period ended August 31, 2018.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of the Company's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2018, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more of the First American Funds, Inc. since 1999.

Total Investments ▲ – 100.1% (Cost \$1,339,624)	<u>\$1,339,772</u>
Other Assets and Liabilities, Net – (0.1)%	<u>(1,619)</u>
Total Net Assets – 100.0%	<u>\$1,338,153</u>

- Ⓢ Securities are valued in accordance with procedures described in note 2 in Notes to Financial Statements.
- △ Variable Rate Security – The rate shown is the rate in effect as of August 31, 2018.
- Security purchased within the terms of a private placement memorandum, exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and may be sold only to dealers in that program or other qualified institutional buyers. As of August 31, 2018, the value of these investments was \$358,524 or 26.8% of total net assets.
- Discounted Security – This security makes no periodic interest payments, but is issued at a discount from par value. The rate shown is the annualized yield at the time of purchase.
- # Adjustable Rate Security – The rate is determined by the Remarketing Agent.
- ∞ Illiquid Security – A security may be considered illiquid if it lacks a readily available market. As of August 31, 2018, the value of these investments was \$30,000 or 2.2% of total net assets. See note 2 in Notes to Financial Statements.
- ▲ On August 31, 2018, the cost of investments for federal income tax purposes was \$1,339,624. The aggregate gross unrealized appreciation and depreciation of investments, based on this cost, was \$163 and \$15 respectively.

Investment Abbreviations:

LIBOR – London Interbank Offered Rate
LOC – Letter of Credit

- ☼ Securities are valued in accordance with procedures described in note 2 in Notes to Financial Statements.
- △ Variable Rate Security – The rate shown is the rate in effect as of August 31, 2018.
- Security purchased within the terms of a private placement memorandum, exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and may be sold only to dealers in that program or other qualified institutional buyers. As of August 31, 2018, the value of these investments was \$766,084 or 26.8% of total net assets.
- ☉ Discounted Security – This security makes no periodic interest payments, but is issued at a discount from par value. The rate shown is the annualized yield at the time of purchase.
- # Adjustable Rate Security – The rate is determined by the Remarketing Agent.
- ∞ Illiquid Security – A security may be considered illiquid if it lacks a readily available market. As of August 31, 2018, the value of these investments was \$90,000 or 3.1% of total net assets. See note 2 in Notes to Financial Statements.
- ▲ On August 31, 2018, the cost of investments for federal income tax purposes was \$2,862,583. The aggregate gross unrealized appreciation and depreciation of investments, based on this cost, were both \$0.

Investment Abbreviations:

- LIBOR – London Interbank Offered Rate
- LOC – Letter of Credit
- OBFR – Overnight Bank Funding Rate

The accompanying notes are an integral part of the financial statements.

1 > Organization

Government Obligations Fund, Institutional Prime Obligations Fund, Retail Prime Obligations Fund, Retail Tax Free Obligations Fund, Treasury Obligations Fund, and U.S. Treasury Money Market Fund (each a “fund” and collectively, the “funds”) are mutual funds offered by First American Funds, Inc. (“FAF”), which is a member of the First American Family of Funds. FAF is registered under the Investment Company Act of 1940, as amended (“Investment Company Act”), as an open-end investment management company. FAF’s articles of incorporation permit the board of directors to create additional funds in the future. U.S. Bancorp Asset Management, Inc. (“USBAM”) is the investment advisor to each of the funds (the “advisor”), and is a subsidiary of U.S. Bank National Association (“U.S. Bank”). U.S. Bank is a separate entity and wholly owned subsidiary of U.S. Bancorp.

Government Obligations Fund, Treasury Obligations Fund, and U.S. Treasury Money Market Fund qualify as “government money market funds” under Rule 2a-7 of the Investment Company Act and seek to maintain a stable net asset value (“NAV”) per share of one dollar. They are generally not subject to the default liquidity fees and redemption gates that may apply to other money market funds and the board of directors has determined not to impose such fees and gates on these funds.

Government Obligations Fund, Treasury Obligations Fund, and U.S. Treasury Money Market Fund offer Class A, Class D, Class V, Class Y, and Class Z shares. Additionally, Government Obligations Fund and Treasury Obligations Fund offer Class P (effective December 18, 2017) and Class X shares, and Government Obligations Fund offers Class U shares (effective February 26, 2018). Effective August 23, 2018, Class G shares of Treasury Obligations Fund closed to new investors.

Retail Prime Obligations Fund and Retail Tax Free Obligations Fund are open to retail investors (“natural persons”) and seek to maintain a stable NAV per share of one dollar. They are subject to the possibility of liquidity fees and redemption gates, as required by Rule 2a-7 of the Investment Company Act. Retail Prime Obligations Fund and Retail Tax Free Obligations Fund offer Class A, Class V, Class Y, and Class Z shares. Retail Prime Obligations Fund also offers Class T and Class X shares.

Institutional Prime Obligations Fund is subject to the possibility of liquidity fees and redemption gates and transacts at a floating NAV that is calculated out to four decimal places, as required by Rule 2a-7 of the Investment Company Act. The fund offers Class T, Class V, Class X, Class Y, and Class Z shares. Class A and Class D shares closed on December 8, 2016.

Each fund’s prospectus provides descriptions of its investment objective, principal investment strategies, and principal risks. All classes of shares of a fund have identical voting, dividend, liquidation and other rights, and the same terms and conditions, except that certain fees and expenses, including distribution and shareholder servicing fees, may differ among classes. Each class has exclusive voting rights on any matters relating to its servicing or distribution arrangements.

2> Summary of Significant Accounting Policies

The significant accounting policies followed by the funds are as follows:

SECURITY VALUATIONS

Government Obligations Fund, Retail Prime Obligations Fund, Retail Tax Free Obligations Fund, Treasury Obligations Fund, and U.S. Treasury Money Market Fund

Investment securities held are stated at amortized cost (except for investments in other money market funds which are valued at their most current NAV), which approximates fair value. Under the amortized cost method any discount or premium is amortized ratably to the final maturity of the security and is included in interest income. In accordance with Rule 2a-7 of the Investment Company Act, the fair value of securities held in the funds are determined using amortized cost, which is compared to prices provided by independent pricing providers.

If the advisor concludes that the price obtained from the pricing service is not reliable, or if the pricing service does not provide a price for a security, the advisor will use the fair value of the security for purposes of this comparison, which will be determined pursuant to procedures approved by the board of directors. If the difference between the aggregate market value and aggregate amortized cost of all securities held by a fund exceeds 0.25%, the funds' administrator will notify the funds' board of directors and will monitor the deviation on a daily basis. If the difference exceeds 0.50%, a meeting of the board of directors will be convened and the board will determine what action, if any, to take. During the fiscal year ended August 31, 2018, the differences between the aggregate market value and the aggregate amortized cost of all securities did not exceed 0.25% for any fund on any day of the period.

Institutional Prime Obligations Fund

The fund prices and transacts its shares at a floating NAV, rounded to the fourth decimal place. The NAV per share of each share class of the fund is calculated at 8:00 a.m., 11:00 a.m., and 2:00 p.m. Central Time on each business day that the fund is open. The fund's investments for which market quotations are readily available will be valued at market value on the basis of quotations furnished by a pricing service or provided by securities dealers. If market quotations are not readily available, or if the advisor believes that such quotations do not accurately reflect market prices, the fair value of the fund's investments will be determined in good faith based upon valuation procedures established by the board of directors. Short-term debt obligations maturing in sixty days or less may be valued at amortized cost where the advisor believes that it approximates market value. Shares of other money market funds are valued at their most current NAV.

United States generally accepted accounting principles ("GAAP") require disclosures regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or technique. These principles establish a three-tier fair value hierarchy for inputs used in measuring fair value. Fair value inputs are summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including quoted prices for similar securities with similar interest rates, credit risk, etc.). Also includes securities valued at amortized cost.

Level 3 – Significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments).

Notes to Financial Statements

August 31, 2018, all dollars and shares are rounded to thousands (000 omitted)

The fair value levels are not necessarily an indication of the risk associated with investing in these securities. As of August 31, 2018, each fund's investments were classified as follows:

Fund	Level 1	Level 2	Level 3	Total Fair Value
Government Obligations Fund				
U.S. Government Agency Debt	\$ —	\$17,676,337	\$—	\$17,676,337

U.S. Treasury Money Market Fund				
U.S. Treasury Debt	\$ —	\$ 1,272,024	\$—	\$ 1,272,024
Total Investments	\$ —	\$ 1,272,024	\$—	\$ 1,272,024

Refer to each fund's Schedule of Investments for further security classification.

During the fiscal year ended August 31, 2018, there were no transfers between fair value levels, and the funds' portfolios did not hold any securities deemed to be Level 3.

ILLIQUID OR RESTRICTED SECURITIES – A security may be considered illiquid if it lacks a readily available market. Securities are generally considered liquid if they can be sold or disposed of in the ordinary course of business within seven days at approximately the price at which the security is valued by the fund. Illiquid securities may be valued under methods approved by the funds' board of directors as reflecting fair value.

Certain restricted securities may be considered illiquid. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be valued under methods approved by the funds' board of directors as reflecting fair value. Certain restricted securities eligible for resale to qualified institutional investors are not subject to the limitation on a fund's investment in illiquid securities if they are determined to be liquid in accordance with procedures adopted by the funds' board of directors.

As of and during the fiscal year ended August 31, 2018, the funds did not hold any restricted securities. As of August 31, 2018, Institutional Prime Obligations Fund and Retail Prime Obligations Fund had investments in illiquid securities with a total value of \$30,000 or 2.2% of total net assets and \$90,000 or 3.1% of total net assets, respectively.

SECURITY TRANSACTIONS AND INVESTMENT INCOME – For financial statement purposes, the funds record security transactions on the trade date of the security purchase or sale. Interest income, including amortization, is recorded on an accrual basis.

DISTRIBUTIONS TO SHAREHOLDERS – Distributions from net investment income are declared daily and are payable in cash or reinvested in additional shares of the fund at net asset value on the first business day of the following month.

FEDERAL TAXES – Each fund is treated as a separate taxable entity. Each fund intends to continue to qualify as a regulated investment company as provided in Sub-chapter M of the Internal Revenue Code, as amended, and to distribute all taxable income, if any, to its shareholders. Accordingly, no provision for federal income taxes is required.

As of August 31, 2018, the funds did not have any tax positions that did not meet the "more-likely-than-not" threshold of being sustained by the applicable tax authority. Generally, tax authorities can examine all tax returns filed for the last three years.

Net investment income and net realized gains (losses) may differ for financial statement and tax purposes because of temporary or permanent book-to-tax differences. To the extent these differences are permanent, reclassifications are made to the appropriate equity accounts in the period in which the differences arise. On the Statements of Assets and Liabilities the following amounts were reclassified:

Fund	Undistributed (Distributions in Excess of) Net Investment Income	Accumulated Net Realized Gain/Loss	Portfolio Capital
Government Obligations Fund	\$4	\$(4)	\$—
Retail Prime Obligations Fund	1	(1)	—
Retail Tax Free Obligations Fund	5	(5)	—
Treasury Obligations Fund	2	(2)	—
U.S. Treasury Money Market Fund	8	(8)	—

The character of distributions made during the year from net investment income or net

Notes to Financial Statements

August 31, 2018, all dollars and shares are rounded to thousands (000 omitted)

realized gains may differ from its ultimate characterization for federal income tax purposes. In addition, due to the timing of dividend distributions, the fiscal period in which the amounts are distributed may differ from the period that the income or realized gains were recorded by the fund.

The distributions paid during the fiscal years ended August 31, 2018 and August 31, 2017 (adjusted by dividends payable as of August 31, 2018 and August 31, 2017, respectively) were as follows:

August 31, 2018				
Fund	Ordinary Income	Tax-Exempt Income	Capital Gain	Total
Government Obligations Fund	\$338,626	\$ —	\$—	\$388,626
Institutional Prime Obligations Fund	12,065	—	—	12,065
Retail Prime Obligations Fund	32,323	—	—	32,323
Retail Tax Free Obligations Fund	—	3,114	—	3,114
Treasury Obligations Fund	120,627	—	—	120,627
U.S. Treasury Money Market Fund	13,328	—	—	13,328

August 31, 2017				
Fund	Ordinary Income	Tax-Exempt Income	Capital Gain	Total
Government Obligations Fund	\$111,776	\$ —	\$—	\$111,776
Institutional Prime Obligations Fund	4,970	—	—	4,970
Retail Prime Obligations Fund	10,102	—	—	10,102
Retail Tax Free Obligations Fund	—	1,124	—	1,124
Treasury Obligations Fund	30,295	—	—	30,295
U.S. Treasury Money Market Fund	2,444	—	31	2,475

Each fund designates as long-term capital gain dividend, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits related to net capital gain to zero for the tax year ended August 31, 2018.

As of August 31, 2018, the components of accumulated earnings on a tax-basis were as follows:

Fund	Undistributed Ordinary Income	Undistributed Tax Exempt Income	Accumulated Capital and Post-October Losses	Unrealized Appreciation	Total Accumulated Earnings (Deficit)
Government Obligations Fund	\$50,991	\$ —	\$ —	\$ —	\$50,991
Institutional Prime Obligations Fund	2,107	—	—	148	2,255
Retail Prime Obligations Fund	4,098	—	—	—	4,098
Retail Tax Free Obligations Fund	—	377	(13)	—	364
Treasury Obligations Fund	17,999	—	—	—	17,999
U.S. Treasury Money Market Fund	1,761	—	—	—	1,761

The differences between book-basis and tax-basis undistributed/accumulated income, gains, and losses are primarily due to distributions declared but not paid by August 31, 2018.

Under current law, the funds may carry forward net capital losses indefinitely to use to offset capital gains realized in future years. Capital losses realized under current law will carry forward retaining their classification as either long-term or short-term losses. As of August 31, 2018, Retail Tax Free Obligation Fund had indefinite short-term capital loss carryforwards of \$13.

During the fiscal year ended August 31, 2018, U.S. Treasury Money Market Fund utilized \$1 of capital loss carryforwards.

REPURCHASE AGREEMENTS – Each fund (other than U.S. Treasury Money Market Fund) may enter into repurchase agreement transactions with counterparties whom the funds’ investment advisor deems creditworthy, subject to the seller’s agreement to repurchase such securities from the funds at a mutually agreed upon date and price. The repurchase price generally equals the price paid by the fund, plus interest, at a rate that is negotiated on the basis of current short-term rates.

Securities pledged as collateral for repurchase agreement transactions are held by the custodian bank or maintained in a segregated account by an unaffiliated third-party custodian bank until the maturity of the respective repurchase agreement transaction. Provisions of the repurchase agreements are designed to ensure that the value of the collateral, including accrued interest thereon, is sufficient in the event of default of the counterparty. If the counterparty defaults and the value of the collateral declines or if the counterparty enters an insolvency proceeding, realization of the collateral by the fund may be delayed or limited. Retail Tax Free Obligations Fund did not enter into repurchase agreement transactions during the fiscal year ended August 31, 2018.

Pursuant to exemptive relief granted by the U.S. Securities and Exchange Commission (“SEC”), each fund may enter into repurchase agreement transactions (and other short-term investments) on a joint basis with certain other funds advised by the advisor.

The table below shows the offsetting assets and liabilities relating to the repurchase agreement transactions shown on the Statements of Assets and Liabilities:

Assets:	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statements of Assets and Liabilities	Net Amounts Presented in the Statements of Assets and Liabilities	Gross Amounts Not Offset in the Statements of Assets and Liabilities		Net Amount ¹
				Financial Instruments	Collateral Pledged (Received)	
Repurchase Agreements						
Government						
Obligations Fund	\$17,884,304	\$ —	\$17,884,304	\$ —	\$(17,884,304)	\$ —
Institutional Prime						
Obligations Fund	234,693	—	234,693	—	(234,693)	—
Retail Prime						
Obligations Fund	564,438	—	564,438	—	(564,438)	—
Treasury						
Obligations Fund	8,255,565	—	8,255,565	—	(8,255,565)	—

¹ Net amount represents the net amount due (to) from counterparty in the event of a default based on the contractual set-off rights under the agreement. Net amount excludes any over-collateralized amounts.

Notes to Financial Statements

August 31, 2018, all dollars and shares are rounded to thousands (000 omitted)

The table below shows the remaining contractual maturity of the repurchase agreements:

Remaining Contractual Maturity of the Agreements	Overnight and Continuous	Up to 30 Days	31 to 90 Days	Over 91 Days	Total
Government Obligations Fund					
Repurchase Agreements					
U.S. Government Agency	\$2,300,000	\$ —	\$ —	\$ —	\$ 2,300,000
U.S. Treasury	6,959,304	8,625,000	—	—	15,584,304

Repurchase Agreements					
U.S. Treasury	\$4,955,565	\$3,300,000	\$ —	\$ —	\$ 8,255,565
Total Borrowings	\$4,955,565	\$3,300,000	\$ —	\$ —	\$ 8,255,565

SECURITIES LENDING - In order to generate additional income, each fund (other than U.S. Treasury Money Market Fund) may lend portfolio securities representing up to one-third of the value of its total assets to broker-dealers, banks or other institutional borrowers of securities. Only Government Obligations Fund, Institutional Prime Obligations Fund, Retail Prime Obligations Fund, and Treasury Obligations Fund may do so as a principal investment strategy.

Each fund's policy is to maintain collateral in the form of cash, U.S. government securities, or other high-grade debt obligations equal to at least 100% of the value of securities loaned. The collateral is then "marked to market" daily until the securities are returned. As with other extensions of credit, there may be risks of delay in recovery of the securities or even loss of rights in the collateral should the borrower of the security fail financially. Cash collateral is invested in short-term, high quality U.S. dollar-denominated securities that would be eligible for investment by a money market fund under Rule 2a-7 of the Investment Company Act. As of August 31, 2018, the funds had no securities on loan. In addition, the funds did not participate in securities lending during the fiscal year ended August 31, 2018.

U.S. Bank, the parent company of the funds' advisor, serves as the securities lending agent for the funds in transactions involving the lending of portfolio securities on behalf of the fund. U.S. Bank acts as the securities lending agent pursuant to, and subject to compliance with, conditions contained in an exemptive order issued by the SEC. As the securities lending agent, U.S. Bank receives fees of up to 20% of each fund's net income from securities lending transactions and pays half of such fees to USBAM for certain securities lending services provided by USBAM. For the fiscal year ended August 31, 2018, no fees were paid to U.S. Bank for serving as the securities lending agent for the funds.

EXPENSES – Expenses that are directly related to one of the funds are charged directly to that fund. Other operating expenses are allocated to the funds on several bases, including relative net assets of all funds. Class-specific expenses, such as distribution fees and shareholder servicing fees, are borne by that class.

INTERFUND LENDING PROGRAM – Pursuant to an exemptive order issued by the SEC, the funds, along with other registered investment companies in the First American Family of Funds, may participate in an interfund lending program. This program provides an alternative credit facility allowing the funds to borrow from, or lend money to, other participating funds. The funds did not have any interfund lending transactions during the fiscal year ended August 31, 2018.

USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported results of operations during the reporting period. Actual results could differ from those estimates.

3> Fees and Expenses

INVESTMENT ADVISORY FEES – Pursuant to an investment advisory agreement, USBAM manages each fund's assets and furnishes related office facilities, equipment, research and personnel. The agreement requires each fund to pay USBAM a monthly fee equal, on an annual basis, to 0.10% of the fund's average daily net assets.

The advisor has contractually agreed to waive fees and reimburse other fund expenses through October 31, 2019, so the annual fund operating expenses, after waivers, do not exceed the following amounts:

Fund	Share Class									
	A	D	G	P	T	U	V	X	Y	Z
Government										
Obligations Fund	0.75%	0.60%	N/A	0.18%	N/A	0.12%	0.30%	0.14%	0.45%	0.18%
Institutional Prime										
Obligations Fund	N/A	N/A	N/A	N/A	0.40%	N/A	0.30%	0.14%	0.45%	0.20%
Retail Prime										
Obligations Fund	0.75%	N/A	N/A	N/A	0.40%	N/A	0.30%	0.14%	0.45%	0.20%
Retail Tax Free										
Obligations Fund	0.75%	N/A	N/A	N/A	N/A	N/A	0.30%	N/A	0.45%	0.20%
Treasury										
Obligations Fund	0.75%	0.60%	0.94%	0.18% ¹	N/A	N/A	0.30%	0.14%	0.45%	0.18% ¹
U.S. Treasury										
Money Market										
Fund	0.75%	0.60%	N/A	N/A	N/A	N/A	0.30%	N/A	0.45%	0.20%

¹ Effective March 13, 2018.

These contractual waivers and reimbursements will remain in effect through October 31, 2018 (December 31, 2018 for Government Obligations P shares and February 28, 2019 for Government Obligations U shares) and may not be terminated prior to such time without the approval of the funds' board of directors. Waivers and reimbursements by the advisor are otherwise voluntary and may be terminated at any time by the advisor. In order to maintain a minimum yield, or to prevent total annual fund operating expenses from exceeding the fund classes expense limitations, USBAM waived or reimbursed investment advisory fees of \$305 and \$12 for Institutional Prime Obligations Fund and Retail Tax Free Obligations Fund, respectively, during the fiscal year ended August 31, 2018.

ADMINISTRATION FEES – USBAM serves as the funds' administrator pursuant to an administration agreement between USBAM and the funds. U.S. Bancorp Fund Services, LLC doing business as U.S. Bank Global Fund Services ("USBGFS") serves as sub-administrator pursuant to a sub-administration agreement between USBGFS and USBAM. USBAM is a subsidiary of U.S. Bank. Both U.S. Bank and USBGFS are direct subsidiaries of U.S. Bancorp. Under the administration agreement, USBAM is compensated to provide, or compensates other entities to provide, services to the funds. These services include various legal, oversight, administrative, and accounting services. The funds pay USBAM administration fees, which are calculated daily and paid monthly, equal to each fund's pro rata share of an amount equal, on an annual basis, to 0.20% of the aggregate average daily Class A share net assets and 0.15% of the aggregate average daily net assets for all other share classes of all funds, up to \$8 billion, 0.185% for Class A shares and 0.135% for all other classes on the next \$17 billion of the aggregate average daily net assets, 0.17% for Class A shares and 0.12% for all other classes on the next \$25 billion of aggregate average daily net assets, and 0.15% for Class A shares and 0.10% for all other classes of the aggregate average daily net assets in excess of \$50 billion. All fees paid to the sub-administrator are paid from the administration fee. In addition to these fees, the funds may reimburse USBAM and the sub-administrator for any out-of-pocket expenses incurred in providing administration services.

In order to maintain minimum yields for each fund, or to keep total annual fund operating expenses from exceeding the fund classes expense limitations, USBAM voluntarily waived or reimbursed administration fees of \$19,016, \$795, \$1,555, \$509, \$6,125, and \$880 for Government Obligations Fund, Institutional Prime Obligations Fund, Retail Prime Obligations Fund, Retail Tax Free Obligations Fund, Treasury Obligations Fund, and U.S. Treasury Money Market Fund, respectively, during the fiscal year ended August 31, 2018.

TRANSFER AGENT FEES – USBGFS serves as the funds' transfer agent pursuant to a transfer agent agreement between USBGFS and the funds. The funds are charged transfer agent fees on a per shareholder account basis, subject to a minimum fee per share class, based upon the number of accounts within each fund. In addition to these fees, the funds may reimburse USBGFS for out-of-pocket expenses incurred in providing transfer agent services.

CUSTODIAN FEES – U.S. Bank serves as the funds' custodian pursuant to a custodian agreement between U.S. Bank and the funds. The custodian fee charged for each fund is equal to an annual rate of 0.005% of average daily net assets. All fees are computed daily and paid monthly.

Under the custodian agreement, interest earned on uninvested cash balances is used to reduce a portion of each fund's custodian expenses. These credits, if any, are disclosed as "Indirect payments from custodian" in the Statements of Operations. Conversely, the custodian charges a fee for any cash overdrafts incurred by a particular fund, which increases that fund's custodian expenses.

For the fiscal year ended August 31, 2018, custodian fees were neither increased as a result of overdrafts nor decreased as a result of interest earned.

DISTRIBUTION AND SHAREHOLDER SERVICING (12B-1) FEES – Quasar Distributors, LLC ("Quasar"), a subsidiary of U.S. Bancorp, serves as distributor of the funds pursuant to a distribution agreement between Quasar and the funds. Under the distribution agreement and pursuant to a plan adopted by each fund under Rule 12b-1 of the Investment Company Act, each fund pays Quasar a monthly distribution and/or shareholder servicing fee equal to an annual rate of up to 0.25%, 0.15%, and 0.50% of each fund's average daily net assets attributable to Class A, Class D, and Class G shares, respectively. No distribution or shareholder servicing fees are paid to Quasar by any other share class of the funds. These fees are used by Quasar for the primary purpose of compensating broker-dealers for their sale of fund shares.

Under these distribution and shareholder servicing agreements, the following amounts were received by affiliates of USBAM for the fiscal year ended August 31, 2018:

Fund	Amount
Government Obligations Fund	\$5,691
Retail Prime Obligations Fund	2,807
Retail Tax Free Obligations Fund	89
Treasury Obligations Fund	3,187
U.S. Treasury Money Market Fund	222

SHAREHOLDER SERVICING (NON-12B-1) FEES – FAF has also adopted and entered into a shareholder servicing plan and agreement with USBAM, under which USBAM has agreed to provide FAF, or will enter into written agreements with other service providers pursuant to which the service providers will provide FAF, with non-distribution-related services to shareholders of Class A, Class D, Class G, Class T, Class V, and Class Y shares. Each fund pays USBAM a monthly shareholder servicing fee equal to an annual rate of 0.25% of the average daily net assets attributable to Class A, Class D, Class G, and Class Y shares, a fee equal to an annual rate of 0.20% of the average daily net assets attributable to Class T shares, and a fee equal to an annual rate of 0.10% of the average daily net assets attributable to Class V shares.

Under this shareholder servicing plan and agreement, the following amounts were paid to USBAM for the fiscal year ended August 31, 2018:

Fund	Amount
Government Obligations Fund	\$33,408
Institutional Prime Obligations Fund	1,158
Retail Prime Obligations Fund	6,156
Retail Tax Free Obligations Fund	959
Treasury Obligations Fund	11,513
U.S. Treasury Money Market Fund	2,215

Notes to Financial Statements

August 31, 2018, all dollars and shares are rounded to thousands (000 omitted)

OTHER EXPENSES – In addition to the investment advisory fees, administration fees, transfer agent fees, custodian fees, and distribution and shareholder servicing fees, each fund is responsible for paying most other operating expenses, including: legal, auditing, registration fees, postage and printing of shareholders reports, fees and expenses of independent directors, insurance, and other miscellaneous expenses.

4> Fund Shares for Institutional Prime Obligations Fund

Transactions in fund shares for each class of Institutional Prime Obligations Fund were as follows:

	Sales	Reinvestments of distributions	Redemptions	Net increase (decrease)
Year Ended August 31, 2018				
Class T	321,407	8	(316,371)	5,044
Class V	346,762	—	(257,122)	89,640
Class X	496,543	1	(456,573)	39,971
Class Y	1,063,848	31	(887,943)	175,936
Class Z	2,352,017	281	(2,099,296)	253,002
Year Ended August 31, 2017				
Class A ¹	100,676	13	(736,379)	(635,690)
Class D ¹	102,056	—	(412,880)	(310,824)
Class T	409,096	4	(768,093)	(358,993)
Class V	547,048	—	(673,151)	(126,103)
Class X	37	—	—	37
Class Y	1,547,870	14	(2,334,832)	(786,948)
Class Z	2,289,759	123	(4,992,375)	(2,702,493)

¹ Effective December 8, 2016, Class A and Class D shares were closed.

5> Portfolio Characteristics of the Retail Tax Free Obligations Fund

The Retail Tax Free Obligations Fund invests in municipal securities. At August 31, 2018, the percentage of portfolio investments by each category was as follows:

	Retail Tax Free Obligations Fund
Weekly Variable Rate Demand Notes	85.1%
Daily Variable Rate Notes & Bonds	5.3
Other Municipal Notes & Bonds	4.9
Commercial Paper & Put Bonds	4.7
	100.0%

The Retail Tax Free Obligations Fund invests in longer-term securities that include revenue bonds, tax and revenue anticipation notes, and general obligation bonds. At August 31, 2018, the percentage of total portfolio investments by each revenue source was as follows:

	Retail Tax Free Obligations Fund
Revenue Bonds	91.2%
General Obligations	8.8
	100.0%

6> Indemnifications

The funds enter into contracts that contain a variety of indemnifications. The funds' maximum exposure under these arrangements is unknown as it would be dependent upon future claims that may be made against the funds. However, the funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

7> Subsequent Event

On October 26, 2018, Class G shares were converted to Class A shares of Treasury Obligations Fund.

SPECIAL MEETING RESULTS

A special meeting of shareholders of First American Funds, Inc. (the “Company”) was held on May 16, 2018. The matter voted upon at the meeting, as well as the number of votes cast for or withheld with respect to such matter, is set forth below.

The Company’s shareholders elected the following six directors:

Directors	Shares Voted “For”	Shares Withholding Authority to Vote
David K. Baumgardner	12,381,522,168	432,847,574
Mark E. Gaumond	12,380,315,166	434,054,576
Roger A. Gibson	12,359,015,863	455,353,879
Victoria J. Herget	12,597,968,132	216,401,610
Richard K. Riederer	12,358,595,558	455,774,184
James M. Wade	12,348,922,660	465,447,082

TAX INFORMATION

The information set forth below is for each fund’s fiscal year as required by federal laws. Most shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of a fund. Accordingly, the information needed for income tax purposes will be sent in early 2019 on Form 1099. Please consult your tax advisor for proper treatment of this information.

For the fiscal year ended August 31, 2018, each fund has designated long-term capital gains, ordinary income and tax exempt income with regard to distributions paid during the period as follows:

Fund	Long Term Capital Gains Distributions (Tax Basis)	Ordinary Income Distributions (Tax Basis)	Tax Exempt Interest	Total Distributions (Tax Basis) ¹
Government Obligations Fund	—%	100.0%	—%	100.0%
Institutional Prime Obligations Fund	—	100.0	—	100.0
Retail Prime Obligations Fund	—	100.0	—	100.0
Retail Tax Free Obligations Fund	—	—	100.0	100.0
Treasury Obligations Fund	—	100.0	—	100.0
U.S. Treasury Money Market Fund	—	100.0	—	100.0

¹ None of the dividends paid by the funds are eligible for the dividends received deduction or are characterized as qualified dividend income.

The percentage of ordinary income distributions that are designated as interest-related dividends under Internal Revenue Code Section 871(k)(1)(C) for each fund was as follows:

Government Obligations Fund	100.0%
Institutional Prime Obligations Fund	100.0
Retail Prime Obligations Fund	100.0
Retail Tax Free Obligations Fund	—
Treasury Obligations Fund	100.0
U.S. Treasury Money Market Fund	100.0

The percentage of ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Code Section 871(k)(2)(C) for each fund was as follows:

Government Obligations Fund	—%
Institutional Prime Obligations Fund	—
Retail Prime Obligations Fund	—
Retail Tax Free Obligations Fund	—
Treasury Obligations Fund	—
U.S. Treasury Money Market Fund	—

HOW TO OBTAIN A COPY OF THE FUNDS' PROXY VOTING POLICIES AND PROXY VOTING RECORD

A description of the policies and procedures that the funds use to determine how to vote proxies relating to portfolio securities, as well as information regarding how the funds voted proxies relating to portfolio securities, is available at www.FirstAmericanFunds.com and on the SEC's website at www.sec.gov. A description of the funds' policies and procedures is also available without charge upon request by calling 800.677.3863.

FORM N-Q HOLDINGS INFORMATION

Each fund is required to file its complete schedule of portfolio holdings for the first and third quarters of each fiscal year with the SEC on Form N-Q. The funds' Forms N-Q are available without charge upon request (1) by calling 800.677.3863 and (2) on the SEC's website at www.sec.gov. In addition, you may review and copy the funds' Forms N-Q at the SEC's Public Reference Room in Washington, D.C. You may obtain information on the operation of the Public Reference Room by calling 800.SEC.0330.

WEEKLY PORTFOLIO HOLDINGS

Each fund will make portfolio holdings information publicly available by posting the information at www.FirstAmericanFunds.com on a weekly basis.

APPROVAL OF THE FUNDS' INVESTMENT ADVISORY AGREEMENT

The Board, which is comprised entirely of independent directors, oversees the management of each Fund and, as required by law, determines annually whether to renew the Funds' investment advisory agreement with USBAM (as used in this section, the "Agreement").

At meetings on May 14, 2018 and June 19, 2018, the Board considered information relating to the Agreement. In advance of the meetings, the Board received materials relating to the Agreement and had the opportunity to ask questions and request further information in connection with its consideration. The Board employs an independent consultant to prepare a report that provides information, including comparative information that the Board requests for that purpose. In addition to the meetings focused on this evaluation, the Board receives information throughout the year regarding Fund services, fees, expenses and performance.

Although the Agreement relates to all of the Funds, the Board separately considered and approved the Agreement with respect to each Fund. In considering the Agreement, the Board, advised by independent legal counsel, reviewed and considered the factors it deemed relevant, including: (1) the nature, quality and extent of USBAM's services to each Fund, (2) the investment performance of each Fund, (3) the comparative expense information, including an analysis of USBAM's cost of providing services and the profitability of USBAM related to the Funds, (4) whether economies of scale may be realized as the Funds grow and whether fee levels are adjusted to enable Fund investors to share in these potential economies of scale, and (5) other benefits that accrue to USBAM through its relationship with the Funds. In its deliberations, the Board did not identify any single factor which alone was responsible for the Board's decision to approve the Agreement with respect to any Fund.

At the May 14, 2018 and June 19, 2018 meetings and before approving the Agreement, the independent directors met in executive session with their independent counsel to consider the materials provided by USBAM and the terms of the Agreement. Based on its evaluation of those materials, the Board concluded that the Agreement is fair and in the best interests of the shareholders of each Fund and approved the Agreement through June 30, 2019. In reaching its conclusion, the Board considered the following:

Nature, Quality and Extent of Investment Advisory Services

The Board examined the nature, quality and extent of the services provided by USBAM to each Fund. The Board reviewed USBAM's key personnel who provide investment management services to each Fund as well as the fact that, under the Agreement, USBAM has the authority and responsibility to make and execute investment decisions for each Fund within the framework of that Fund's investment policies and restrictions, subject to review by the Board. The Board further considered that USBAM's duties with respect to each Fund include: (i) investment research and security selection, (ii) adherence to (and monitoring compliance with) the Funds' investment policies and restrictions and the 1940 Act, and (iii) monitoring the performance of the various organizations providing services to the Funds, including the Funds' distributor, sub-administrator, transfer agent and custodian. Finally, the Board considered USBAM's representation that the services provided by USBAM under the Agreement are the type of services customarily provided by investment advisers in the fund industry. The Board also considered compliance reports about USBAM from the Funds' Chief Compliance Officer.

Based on the foregoing, the Board concluded that each Fund is likely to benefit from the nature, quality and extent of the services provided by USBAM under the Agreement.

Investment Performance of the Funds

The Board considered the performance of each Fund, including comparative information provided by an independent data service, regarding the median performance of a group of comparable funds selected by that data service (the "performance universe") for the one-, three- and five-year periods ended February 28, 2018.

GOVERNMENT OBLIGATIONS FUND. The Board noted that, in the rising interest rate environment prevailing during the most recent one-year period, the range of returns among all funds within the performance universe over the one-year period was wider than it had been in prior years. The Board noted that the Fund outperformed its performance universe median for the one- and three-year periods and was equal to its performance universe median for the five-year period on a gross-of-expenses basis. The

Board also considered that the Fund underperformed in relation to its performance universe median for the one-, three- and five-year periods on a net-of-expenses basis. The Board considered that the Fund's outperformance on a gross-of-expenses basis indicated that the Fund's portfolio management team was successfully implementing the Fund's investment strategy, and in light of this competitive performance, the Board concluded that it would be in the best interest of the Fund and its shareholders to renew the Agreement.

RETAIL PRIME OBLIGATIONS FUND. The Board considered that the Fund commenced operations on July 18, 2016. The Board considered that the Fund outperformed its peer universe median on both a gross-of-expenses basis and a net-of-expenses basis over the one-year period. In light of the brief period of time since the Fund's commencement of operations and its competitive performance thus far, the Board concluded that it would be in the best interest of the Fund and its shareholders to renew the Agreement.

INSTITUTIONAL PRIME OBLIGATIONS FUND. The Board noted that, in the rising interest rate environment prevailing during the most recent one-year period, the range of returns among all funds within the performance universe over the one-year period was wider than it had been in prior years. The Board noted that the Fund underperformed its performance universe median over the one-, three- and five-year periods on a net-of-expenses basis and gross-of-expenses basis. The Board considered USBAM's belief that the underperformance of the Fund is attributable to a traditionally more conservative investment approach than much of the peer group and the anticipation of potentially large outflows during the implementation of money market fund reform in 2016 and the corresponding negative impact on fund metrics. In light of these considerations, the Board concluded that it would be in the best interest of the Fund and its shareholders to renew the Agreement.

TREASURY OBLIGATIONS FUND. The Board noted that, in the rising interest rate environment prevailing during the most recent one-year period, the range of returns among all funds within the performance universe over the one-year period was wider than it had been in prior years. The Board considered that the Fund outperformed its performance universe median over the one-, three- and five-year periods on a gross-of-expenses basis. The Board also considered that the Fund underperformed its performance universe median over the one-, three- and five-year periods on a net-of-expenses basis. The Board considered that the Fund's outperformance on a gross-of-expenses basis indicated that the Fund's portfolio management team was successfully implementing the Fund's investment strategy, and in light of this competitive performance, the Board concluded that it would be in the best interest of the Fund and its shareholders to renew the Agreement.

RETAIL TAX FREE OBLIGATIONS FUND. The Board noted that, in the rising interest rate environment prevailing during the most recent one-year period, the range of returns among all funds within the performance universe over the one-year period was wider than it had been in prior years. The Board considered that the Fund underperformed its performance universe median by two basis points over the one-, three- and five-year periods on a gross-of-expenses basis. The Board further considered that the Fund underperformed during these same time periods on a net-of-expenses basis. The Board considered that the Fund had demonstrated continued improvement relative to its peers over the five-year period, and that the Fund operated with a more conservative approved list (i.e., no holdings subject to the alternative minimum tax) than many of its peers. In light of these considerations, the Board concluded that it would be in the best interest of the Fund and its shareholders to renew the Agreement.

U.S. TREASURY MONEY MARKET FUND. The Board noted that, in the rising interest rate environment prevailing during the most recent one-year period, the range of returns among all funds within the performance universe over the one-year period was wider than it had been in prior years. The Board considered that the Fund underperformed its performance universe median by one basis point during the one-year period and by two basis points during the three- and five-year periods on a gross-of-expenses basis. The Board further considered the Fund's underperformance on a net-of-expenses basis. The Board considered USBAM's belief that the underperformance of the Fund can be attributed to investment management decisions during 2017 to maintain ample liquidity in anticipation of a large expected Fund outflow that did not materialize and the potential negative impact on Fund metrics. In light of these considerations, the Board concluded that it would be in the best interest of the Fund and its shareholders to renew the Agreement.

Fees and Expenses of the Funds

GOVERNMENT OBLIGATIONS FUND. The Board reviewed the fees paid to USBAM and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and comparable funds. The Board noted that the Fund's contractual advisory fee and advisory fee after waivers are both lower than the applicable peer group median. The Board further noted that the Fund's total expense ratio after waivers is eleven basis points lower than the peer group median total expense ratio after waivers. The Board noted that the Fund also had contractual fee caps in place for each share class. In light of the competitiveness of the Fund's advisory fee and total expense ratio after waivers, the Board concluded that the Fund's advisory fee is fair.

RETAIL PRIME OBLIGATIONS FUND. The Board reviewed the fees paid to USBAM and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and comparable funds. The Board considered that the Fund's contractual advisory fee and advisory fee after waivers are both lower than the peer group median. The Board further considered that the Fund's total expense ratio after waivers is two basis points higher than the peer group median total expense ratio after waivers, which is at a level generally in line (within five basis points as a general guideline) with its peer group. The Board noted that the Fund also had contractual fee caps in place for each share class. In light of the competitiveness of the Fund's advisory fee and total expense ratio after waivers, the Board concluded that the Fund's advisory fee is fair.

INSTITUTIONAL PRIME OBLIGATIONS FUND. The Board reviewed the fees paid to USBAM and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and comparable funds. The Board considered that the Fund's contractual advisory fee is lower than the peer group median and that its advisory fee after waivers is higher than the peer group median after waivers. The Board noted that the Fund's total expense ratio after waivers is five basis points lower than the peer group median total expense ratio after waivers, which is at a level generally in line (within five basis points as a general guideline) with its peer group. The Board noted that the Fund also had contractual fee caps in place for each share class. In light of the competitiveness of the Fund's advisory fee and total expense ratio after waivers, the Board concluded that the Fund's advisory fee is fair.

TREASURY OBLIGATIONS FUND. The Board reviewed the fees paid to USBAM and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and comparable funds. The Board considered that the Fund's contractual advisory fee is lower than the peer group median contractual advisory fee and that its advisory fee after waivers is higher than the peer group median advisory fee after waivers. The Board noted that the Fund's total expense ratio after waivers is eight basis points lower than the peer group median total expense ratio after waivers. The Board noted that the Fund also had contractual fee caps in place for each share class. In light of the competitiveness of the Fund's advisory fee and total expense ratio after waivers, the Board concluded that the Fund's advisory fee is fair.

RETAIL TAX FREE OBLIGATIONS FUND. The Board reviewed the fees paid to USBAM and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and comparable funds. The Board considered that the Fund's contractual advisory fee and advisory fee after waivers are both lower than the applicable peer group median. The Board noted that the Fund's total expense ratio after waivers is four basis points higher than the peer group median total expense ratio after waivers, which is at a level generally in line (within five basis points as a general guideline) with its peer group. The Board noted that the Fund also had contractual fee caps in place for each share class. In light of the competitiveness of the Fund's advisory fee and total expense ratio after waivers, the Board concluded that the Fund's advisory fee is fair.

U.S. TREASURY MONEY MARKET FUND. The Board reviewed the fees paid to USBAM and the other expenses borne by the Fund. The independent consultant provided comparative data in regard to the fees and expenses of the Fund and comparable funds. The Board considered that the Fund's contractual advisory fee and advisory fee after waivers are both lower than the applicable peer group median. The Board noted that the Fund's total expense ratio after waivers is the same as the peer group median total expense ratio after waivers, which is at a level generally in line (within five basis points as a general guideline) with its peer group. The Board noted that the Fund also had contractual fee caps in place for each share class. In light of the competitiveness of the Fund's advisory fee and total expense ratio after waivers, the Board concluded that the Fund's advisory fee is fair.

Costs of Services and Profits Realized by USBAM

The Board reviewed USBAM's costs in serving as the Funds' investment manager, including the costs associated with the personnel and systems necessary to manage the Funds. The Board considered the profitability of USBAM and its affiliates resulting from their relationship with each Fund. The Board compared fee and expense information for each Fund to fee and expense information for comparable funds managed by other advisers. The Board reviewed advisory fees for private accounts managed by USBAM.

Using information provided by an independent data service, the Board also evaluated each Fund's advisory fee compared to the median advisory fee for other mutual funds similar in size, character and investment strategy, and the Board evaluated each Fund's total expense ratio after waivers compared to the median total expense ratio after waivers of comparable funds. In connection with its review of Fund fees and expenses, the Board considered USBAM's pricing philosophy, whereby USBAM attempts generally to maintain each Fund's total operating expenses at a level that approximates the median of a peer group of funds selected by an independent data service. The Board noted that USBAM has agreed to voluntarily waive fees and reimburse expenses as needed to prevent each Fund's yield on any share class from falling below 0.00%.

Economies of Scale in Providing Investment Advisory Services

The Board considered the extent to which each Fund's investment advisory fee reflects economies of scale for the benefit of Fund shareholders. Based on information provided by USBAM, the Board noted that profitability will likely increase as assets grow over time. The Board considered that, although the Funds do not have advisory fee breakpoints in place, USBAM has committed to waive advisory fees to the extent necessary to prevent each Fund's yield on any share class from falling below 0.00% and to keep each Fund's total expenses generally in line with the median total expenses of a peer group of funds as selected by an independent data service. The Board considered information presented by USBAM to support its assertion that the median total expense ratio of a Fund's peer group likely reflects the effect of any breakpoints in the advisory fee schedules of the funds in that group and any economies of scale which those funds realize. In light of USBAM's commitment to keep total Fund expenses competitive, the Board concluded that it would be in the best interest of each Fund and its shareholders to renew the Agreement.

Other Benefits to USBAM

In evaluating the benefits that accrue to USBAM through its relationship with the Funds, the Board noted that USBAM and certain of its affiliates serve the Funds in various capacities, including as investment adviser, distributor, administrator, transfer agent, custodian and, for certain of the Funds, securities lending agent, and receive compensation from the Funds in connection with providing services to the Funds. The Board considered that each service provided to the Funds by USBAM or one of its affiliates is pursuant to a written agreement, which the Board evaluates periodically as required by law.

Directors and Officers of the Funds

Independent Directors

Name, Address, and Year of Birth	Position(s) Held with Funds	Term of Office and Length of Time Served	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Director	Other Directorships Held by Director†

This report and the financial statements contained herein are not intended to be a forecast of future events, a guarantee of future results, or investment advice. Further, there is no assurance that certain securities will remain in or out of each fund's portfolio. This report is for the information of shareholders of the First American Funds, Inc. It may also be used as sales literature when preceded or accompanied by a current prospectus, which contains information concerning investment objectives, risks, and charges and expenses of the funds. Read the prospectus carefully before investing.

The figures in this report represent past performance and do not guarantee future results. The principal value of an investment and investment return will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.
